DETAILED ACTION

Response to Amendment

1. The amendment and remarks filed on September 25, 2009, are noted with appreciation.
2. Claims 1-8 and 10 remain pending.

Election/Restrictions

3. Claims 1-5 remain withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on September 19, 2007.

Response to Arguments

4. The rejection under 35 USC 112, 1st paragraph, set forth in the prior Office action, is withdrawn in view of the amendment.
5. The rejection under 35 USC 103(a), set forth in the prior Office action, is withdrawn in view of the amendment. Specifically, the cited prior art neither teaches nor suggests the claimed fabric properties.
6. New grounds of rejection are set forth herein below.

Claim Rejections - 35 USC § 112

7. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 1792

8. Claims 6-8 and 10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

9. The term "readily" in claim 6 is a relative term which renders the claim indefinite. The term "readily" is not defined by the claim, the specification does not provide a standard for ascertaining the requisite degree, and one of ordinary skill in the art would not be reasonably apprised of the scope of the invention. It is unclear how easily/quickly the strips must come undone in order to be considered readily undone. Claim 7-8 and 10 are similarly rejected by virtue of their incorporation of this subject matter.

Claim Rejections - 35 USC § 103

10. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

11. Claims 6-8 and 10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Saint Victor (US 6,211,308 B1) in view of Tugwell (US 4,037,008 A) and Aucagne et al. (US 5,939,338 A).

A. Saint Victor and Tugwell are applied herein as in prior Office actions.

B. Neither reference expressly teaches the claimed features of the cloth.

C. Since Saint Victor places no limitation on the particular textile substrate that may be printed upon, one of ordinary skill would have looked to the prior art for a suitable material.

Art Unit: 1792

D. Aucagne teaches a carbon-fiber fabric of the TORAYCA type (see Example 1), that may be impregnated with resin. Such a fabric advantageously is of low weight and strong mechanical properties. Applicant discloses that a TORAYCA type fabric meets the new claimed limitations (see 11:5-8 of the instant spec.).

E. It would have been obvious to one skilled in the art to utilize, as the fabric in the process of Saint Victor, any suitable fabric. It would have been obvious to one skilled in the art to utilize the carbon fabric of Aucagne, motivated not only by the desire and expectation of successfully providing a fabric to be printed, but by the additional advantages attendant the use of a carbon fiber fabric.

F. Finally, it is the Examiner's position that, insofar as Saint Victor teaches flexible ink, there is a reasonable expectation that fibers successfully remain bonded while distorted, as claimed.

Conclusion

12. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

Art Unit: 1792

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
